Publications

Thesis, Books and Book Chapters

5. Gales M.J.F. Model-Based Approaches to Handling Uncertainty in Robust Speech Recognition of Uncertain or Missing Data, Springer, 2011.

Journal Papers and Letters

49. Liu X., Gales M.J.F. and Woodland P.C. *Paraphrastic language models*. Computer Speech and Language 28(6), 1298-1316, 2014

**Refereed International Conference Papers**

118. Gales M.J.F. and Flego F. *Model-Based Approaches for Degraded Channel Modelling in Robust ASR* Proceedings Interspeech 2012.

121. Latorre J., Gales M.J.F., Knill K., Akamine M. *Training a supra-segmental parametric F0 model without interpolating F0* Proceedings ICASSP 2013.

Workshop Papers and Technical Reports (selected)

47. Gales, M.J.F. and Wang, Y.-Q. Model-based approaches to handling additive noise in reverberant environments Hands-free Speech Communication and Microphone Arrays (HSCMA), 2011

50. van Dalen R.C. and Gales M.J.F. A variational perspective on noise-robust speech recognition Automatic Speech Recognition and Understanding (ASRU), 2011

51. Zhang S.X. and Gales M.J.F. Extending noise robust structured support vector machines to larger vocabulary tasks Automatic Speech Recognition and Understanding (ASRU), 2011
